YOUR DASHBOARD:

Required Forms (Also called E-Forms):

These are forms you are REQUIRED to acknowledge before you can access your portal Dashboard. The forms are related to various functions of your registration with Student Disability Services or to specific accommodations. For instance, if you are eligible for accessible testing, you will be required to acknowledge an E-Form. Some E-Forms will require acknowledgement only once, while others may be required each term. Remember, you cannot access your Dashboard until the E-Forms are acknowledged. There is a separate tutorial on how to acknowledge your required E-Forms.

Overview:

The Overview section of your Dashboard is where you will find your To Do List. Your To Do List will tell you steps you need to complete regarding specific accommodations. For instance, if you use testing accommodations, important information about your tests will show up on your To Do List.

The Overview section of your Dashboard is also where you will request your accommodations for your classes. There is a separate tutorial to walk you through how to request your semester accommodations.

This is where you can sign up to receive text message reminders for appointments, test dates, etc.
