VISION: Student Disability Services embraces an educational community that celebrates and values the uniqueness and diversity of each student.

MISSION: in the spirit of equity, and in collaboration with the larger campus community, Student Disability Services leads the university in its commitments to recognize disability as a valued aspect of diversity, to embrace access as a matter of social justice, and to design more welcoming and inclusive environments.

CORE VALUES: As a department, and as individuals, we are committed to following the below Core Values as the foundation of our philosophical and decision-making processes:

- We recognize disability as a dimension of human variation and consider it to be an interaction between the person and the artificially-created barriers to physical, educational, economic, social, and policy environments.
- We support university standards and integrity by valuing high expectations for all students, including those with disabilities.
